Corani quae in usum publicum venerunt duas tantum editiones habemus, Hinckelmannianam et Maraccianam. Quae Petropoli et Casani typis exscriptae, neque tamen unquam publici iuris factae sunt, nonnisi in paucorum virorum doctorum manibus versantur et ne in omnibus quidem bibliothecis regijs asservantur. Hae pariter atque illae quae in Asia ipsa prodierunt, ut editio interlinearis in India impressa quaeque Shirazi a lithographo describebatur et novissima illa Casani prelo subiecta aves rarissimae sunt in his terris, quas evoluisse quidem fando accepimus, sed quas oculis usurpasse vix ulli nostratium contigit. Itaque lustra viginti sex et plura praeterierunt, antequam nova editio praepararetur, ad quam viri docti aditum sibi patefacerent. Tandem animum ad novam Corani editionem moliendam applicuit Carolus Tauchnitz bibliopola et typographus Lipsiensis. Scimus cum in alphabetis occidentalibus fingendis non acquievisse; iam dudum in orientalibus quoque parandis operam posuit indefessam. Hinc factum est, ut literis idiomatis hebraici et syriaci ad summam elegantiam adductis arabicas quoque formas denuo effingere induceret in animum. Quam rem antequam aggrederetur, Boettigerus ille Dresdensis, fantor meus praesentissimus tutorque carissimus, de nova Corani editione conficienda Tauchnitium amicissimum suum sollicitaverat et cui textum curandum traderet, dubitanti me commendaverat. Tauchnitz non recusavit, vidit tamen opus esse multi laboris. Circumspecte agendum, praesidia rei bene gerendae undecunque colligenda, viros, si qui essent, qui consilio et re opem ferre possent, adeundos esse intellexit. Unus tamen mihi instar omnium fuit. Precibus enixis Iosephum de Hammer, qui mihi nunquam defuit, oravi et obtestatus sum, ut adiumenta typographica mitteret, quae haberet vel procurare posset. Atque is, qua est humanitate et quo in studiis linguarum Orientalium constabiliendis, promovendis amplificandisque amore ardentissimo, plura praestitit, quam pollicitus erat. Misit quae in promptu erant Viennae vel ipsi vel Academiae orientali scripturae arabicae specimina elegantissima et formosissima Constantinopoli elaborata. His et aliis in usum vocatis singulisque literis tractatis et retractatis typi tandem fundebantur cura Tauchnitii

assidua et incredibili, quorum Tibi hic specimen proponimus. In quibus non modo id laudandum est, quod quae dicuntur ligaturae accuratissime et elegantissime formatae sunt, sed ratio etiam, quia voces typis exscriptae sunt, annexiones singularum litterarum, flexurae et posito vocalium ceterorumque signorum anagnosticeorum artificiosa et operosa lectorem propria sua virtute ad contemplationem excitant. Titulus quoque litterarum ductus exhibet vere orientales, quos Anton de Hammer, Academiae orientalis Viennensis alumnus optumae spei mihi perquam gratus, ut e metallo exsculperentur, intercedente Iosepho de Hammer scribendo praecevit suaeque industriae hic monumentum exstare voluit.

De textu recepto eiusque indole hic perpauca tantum erunt praemonenda. Prolegomena enim separatim edenda a Tauchnitio imprimuntur, in quibus ratio mihi reddenda erit variarum lectionum recensionumque comicarum et historica praemittenda introductio, quae studiosis harum rerum viam quasi ad Coranum legendum et diiudicandum muniat. Ut ad pauca redeam, id me egisse Te monitum volo, Lector benevole, ut textum darem per lectores Corani peritissimos emendatum, ab interpretibus indigenis probatum et ita in usum vulgarent, potissimum apud Turcas et Arabes Hanefitas introductum. Inde iam patet, textum et Hinckelmannianum et Maraccianum in plurimis locis relinquendum novamque viam ingrediendum fuisse. Vulgo quidem textus a Maraccio datus Hinckelmanniano praefertur, me tamen minime illum ex idoneis, ut mihi videtur, causis praeferendum duxisse libere profiteor. Maraccius fere nunquam in lectionibus receptis sibi constitit, permulta omisit, sexcenties verba perperam expressit et omnino ita versatus est, ut versioni eius latinae explicationibusque adiectis minus proutum statuendum mihi videatur, quam verbis textus arabici, id quod in Prolegomenis exemplis propositis latinis probare studebo. Nec vero editio Hinckelmanni ea est, quae omnibus vitiiis typographicis et criticis careat. Titubavit et ipse in via valde lubrica. Multa eius operi insunt vel maxime improbanda, quibus ad-tipulari nequeo. At non eadem incuria et inconstantia laborat, quae Maraccio vitio dari potest, et recensionem sequitur haud omnino contemnendam. Restat Petropolitana editio Catharinae iussu et sumptibus in usum Muhammedanorum Russiae imperio adiectorum impressa, quae sine dubio proxime accedit ad textum hodie in Oriente receptum et ab interpretibus criticis iisque gravissimis defensum; plura tamen continet magis consuetudine quam rationibus certis nixa, quae in ipsis libris manu scriptis obvia viris doctis vix probari et ab omni negligentiae nota vindicari possint. Ceterum an exemplum ab *Obendallah Mohammed Rachum Junusuf*, Consule Casani Tataro, magni sumptibus, ut ferunt, praeparatum et dudum prela exercens iam in publicum prodierit, nec per litteras hoc consilio Petropolin scriptas nec per hospites ex illis terris huc peregrinantes explorare potui. Quodsi haec ita se habent, iure quæri potest, quae adiumenta doctrinae et instrumenta critica mihi ad manum fuerint in hac nova Corani editione ador-

nunda et conficienda. Textus impressi fere omnes consuebantur, nec qui Calcuttae in vulgus editus est index coranicus, نجوم القرآن inscriptus, auctor erat in nullo pretio habendus. Conscriptus certe est ad textum in India, Persia et Arabia receptum, ideoque certis fundamentis nixus auctoritate confirmatur haud repudianda. Ad haec praesidia alia accedebant adminicula manu exarata. Asservantur in Bibliotheca Dresdensi Corani exempla splendidissima et elegantissima, quae textum continent correctum et usui accommodatissimum. Perantiquum quoque exstat ibi exemplar, sed, quod valde dolendum, dimidium tantum Corani partem complectens, ut Fleischernus meus in Catalogo Manuscriptorum Orientalium Bibliothecae Dresdensis pluribus erudite monet, qui de reliquis quoque Corani codicibus conferendus est. Maioris etiam utilitatis erant commentarii coranici in eadem bibliotheca depositi. De Beidhawino eiusque pretio nihil dicendum esse videtur. Viri docti omni tempore eum inter optimos posuerunt, et plures adeo eum omnibus ceteris palmam praeripuisse recte ac iure contenderunt, et ad specimina a de Sacy, Henzi aliisque edita, ex quibus reliqua indicanda essent, provocarunt. Quam rem ita se habere, editio integra probabit iam diu a Fleischero carissimo ad codicum Parisinorum, Lipsiensium et Dresdanorum fidem tractata, quae pro ingenio eius subtili et eruditione summa ita comparata erit, ut *Beidhâri* ipse vindicem disertiozem et acriorem sibi eligere non potuisset. Commentarius *Zamakhsheri* autem ordine et auctoritate haud dubie a Beidhawino secundus inter codices Dresdenses non reperiabatur, nec est quod multum desideremus, cum ibi non reperiri. Habemus enim testem eius locupletissimum *Imâdi*, cuius opus pereleganter conscriptum et nitidissime descriptum in thesauris pretiosissimis illius bibliothecae optimo iure numeratur. Titulus ei praescribitur: **ارشاد العقل السليم الى مزايا الكتاب الكريم**, „Directio sanae mentis ad praestantias libri nobilis,“ et quae de hoc libro ipsi Muhammedani statuunt, in *Haji Khalfae* Lexico Bibliographico (editionis meae, quae impensis Britannorum Lipsiae typis excuditur brevi tempore proditura, Tom. I. Pag. 249 sq.) ita leguntur: **ارشاد العقل السليم الى مزايا الكتاب الكريم في تفسير القرآن** على مذهب النعمان لشحج الاسلام ومفتي الانام المولى ابي السعود بن محمد العمادى المتوفى سنة ٩٨٢ ولما بلغ تسويده الى سورة ص وطال العهد بيّضه في شعبان سنة ٩٧٢ وارسله الى السلطان سليمان خان مع ابن المعلول فاستقبل الى الباب وزاد في وظيفته وتشريفاته اضعافا . . ثم بيّضه الى تمامه بعد سنة . . فاشتهر صيته وانتشر نسخه في الاقطار ووقع التلقى بالقبول من الخول والكبار لحسن سبكه ولطف تعبيرة فصار يقال له

خطيب المفسرين ومن المعلوم انّ تفسير احد سواه بعد الكشف والقاضى لم يبلغ الى ما بلغ من رتبة الاعتبار والاشتهار والحق انّه حقيق به مع ما فيه من المنافى لدعوى التنزيه ولا شك انّه ما رواه طالع Directio sanae mentis ad praestantius libri nobilis, commentarius in Coranum secundum disciplinam Inami Abu Hanifa Nomân, auctore Sheikh-elislâm et generis humani Mufti Molla Abu'sso'ûd Ben Mohammed Imûdi, mortuo anno 982 (inc. 23. Apr. 1574). -- Cum hic commentarium usque ad Suratam Sâd primis lineis descripsisset et iam multum temporis in eo consumsisset, illam partem mense Shaban anni 972 (inc. 9. Aug. 1564) in charta pura consignavit, eumque cum genero suo Ibn-elma'âlil Sultano Solemân Khân misit. Hic usque ad portam illi obviam ivit eiusque stipendium et vestes honorarias duplicavit. -- Tum Imûdi post annum totum opus nitide exscripsit. -- Tum fama eius divulgabatur et exemplaria per tractus dispergebantur, et principes virorum eruditorum librum honorifice receptum probabant propter eximiam eius compositionem et elegantem orationem, ita ut auctor Khatîb et-mofasssîrîn (orator inter interpretes) appellaretur. Constat etiam commentarium nullius viri docti praeter eum post Kesh-shâf (cuius auctor Zamakhsheri est) et Amedîr et-tenzil a 'Adhi Beidhâwî compositum ad illum gradum auctoritatis et celebritatis pervenisse, eique haec aestimatio summo iure debetur, licet multa ei insint, quae prohibeant, quo minus auctor immunitatem ab omni errore sibi arroget. Neque dubium est, quin iis, quae ab aliis auctoribus depromsit, interpres evaserit fortuna singulari ornatus, ut Shihâb-ed-din Misrî in Khubâyâ ez-zerrâyâ dicit. --

Ex libro ipso satis apparet, illum maximam partem e commentariis Beidhawiano et Zamakhsheriano conflatum esse. Continet autem fere omnem lectionis varietatem, iudicio saepissime de ea interposito. Itaque hunc inprimis duce[m] mihi eligendum esse putavi. Summa autem eorum, quae ex hoc libro ad textum constituendum depromebantur, in Prologomenis deponetur et lectiones graviores ad artem criticae in Corano exercendam a lectoribus clarissimis admissae adiciuntur, unde variae recensiones cognosci et examinari poterunt. Horum et aliorum criticae subsidiorum a Cl. Ebert plenissimum mihi factam esse potestatem lubens gratusque profiteor.

De ratione qua orthographiam administrandam esse putavi in hac nova textus recensione, hoc unum monere sufficiat. Quae Corani lectores et grammatici praecepta tradunt de ea re mirum in modum perplexa, contorta et saepissime sibi adversantia parumque inter se constantia, non admissi, solœcismos evitavi, quae corrupta ex scripturae genere Cufico ad hunc usque diem in plurimis codicibus superstitione quadam religiosa conservata erant, repudiavi et omnino omnia improbavi, quae sine

ratione et regula in Corani editionibus legebantur. De hac laboris parte graviore, in qua multum taedii mihi devorandum fuit, et de soloeicenis et scriptionibus obsoletis, sed ob antiquitatis honorem adhuc propagatis suo loco, quod ex re erit, dicetur.

Versus Suratarum denique ab Arabibus ipsis miracula appellati, ita digesti sunt, ut fere semper distributionem ab Hinckelmanno observatam sequeretur caussa duplici adductus. Primum enim a viris doctis tantum non omnibus editio Hinckelmanniana laudatur, versusque laudati alio ordine instituto vix ac ne vix quidem in hac editione reperiri potuissent, unde magna quaerentibus molestia oborta esset. In nonnullis tamen capitibus a distributione illius viri ob numeros vel omissos vel perperam impressos vitiosa recessi. Deinde miraculorum illorum, ut dicuntur, dispositio nunquam ad certam regulam revocari poterit, cum nec singuli Corani codices iique optimi in numero eorum indicando sibi constent, nec indicatus numerus signis inter singula positis ubique respondeat (cuius rei ipse Coranus Petropoli editus testis est valde conspicuus); denique interpretes rem non expediendam eamque in medio relinquentem esse bene sentientes, hanc dispositionem alto silentio praetermiserunt.

Atque haec sunt, benevole Lector, de quibus Te hic in limine operis monitum volebam. Quod si hanc Corani editionem haud plane inutilem inveneris, hoc Tauchnitio nostro tribuendum esse censeas, qui nec sumptibus pepercit nec operae. Multa fortasse occurrent Tibi neque probata neque unquam probanda, hoc tamen commune omnium librorum vitium nullumque hominem ab erroribus immunem esse ipse scis. Me summam diligentiam in textu et constituendo et emendando posuisse, persuasum habeo, neque ullam aliam laudem ex hoc opere mihi comparare volui, quam ut studiis arabicis consuleretur et Corani legendi studiosis via aperiretur expeditior. Vale mihi que fave. Dabam Misenae Calendis Augustis MDCCXXXIV.

PRAEFATIO

EDITIONIS SECUNDÆ.

Non sperabam, fore ut Coranum post tam breve tempus novis curis elaboratum edere mihi contingeret. Editio enim quum esset stereotypa, ideoque primis exemplaribus divenditis sine ulla difficultate denuo prelo subiici posset, id quod factum identidem est, tanta exemplarium copia virorum harum literarum peritorum desideriis satisfacere posse videbatur. Nihilominus bibliopola meritissimus et honestissimus Carolus Christianus Tauchnitz faciemum putavit, ut quae iam emitterentur exemplaria, ea recognita ac revisa et novis ornamentis aucta prodirent; ut nunc quidem Turcam illum Constantinopolitanum, cui de typis ad imprimendum Coranum a Tauchnitio patre fuis consultius plagulam speciminis loco miseram, non recte vaticinatum esse appareat, quum sub finem responsi, quod die tertio mensis Martii 1834. accepi, haec diceret: حاصل کلام بونه طبع ایدن ذوات بو سودان فارغ اولسه بدندن فارغ اولسی اولادر طبع مستقیم بو مثللو طبع سقیمی قبول اتمز دوستم i. e. „Summa orationis: Qui Coranum typis describunt, hanc phantasiam aliquando abiecturi, si statim ab initio deponerent, melius esset. Natura enim sana eiusmodi aegrotam naturam non recipit, ni amice.“ - Videlicet Turcae doctrinae orthodoxae addicti Coranos typis exscriptos variis de causis nullo pacto admittunt, quum et superstitio id prohibeat et optimi cuiusque Muhammedani sit, Coranum semel in vita describere, et librarii, qui describendi negotio ad vitam sustentandam occupantur, omni ratione Coranos typis excusos reicere studeant. Nunquam vero Tauchnitii in animo habebant, Coranum nostrum in Orientem introducere ita, ut aut in scholis legeretur, aut omnino Muhammedani eo uterentur. Atque etiam, qui nunc illustri officinae praest Car. Chr. Tauchnitius filius, ipse plane alienus est ab eo consilio, neque quidquam hac nova editione spectavit, quam ut viri docti librum haberent studiis suis aptum et convenientem, qua de causa nunc splendidior etiam et elegantiore specie ac forma ornatus prodiit. Ex his facile concludas, quomodo intelligenda sint, quae vir doctissimus et clarissimus Fr. Chr. Aug. Hassé in programme, quo rectoris Academiae Lipsiensis

nomine orationem in solemnibus typographiae saecularibus quartis habendam indixit, pag. 27. commodè adnotavit: „Typi huius operis (Corani arabici Fluegelii cura editi), officinae Tauchnidianae proprii, Francogallorum et Britannorum typos Arabicos antecellant *); attamen signa quaedam minuta **) neglecta fidei Muhammedanorum orthodoxae artem typographicam „Giauri“ suspectam reddidisse dicuntur.“

Paucissima autem sunt, quae praeter mendas quasdam leviores in secunda editione mutanda putavi. Ubique enim Elif otiosum delevi, quod orthographia, quae nunc in Oriente obtinetur, semper in futuro verborum tertiae Waw admittit, ita ut quod exempli gratia in prima editione scriptum est يَرْجُو, nunc scriptum sit يَرْجُو et quae sunt reliqua. Accidit fortasse nonnunquam, quantumvis id evitare omni studio enisus sim, ut forma illa hoc tempore saepissime usurpata hoc vel illo loco mutata non sit. Quod si evenit, lectores benevolos ut excusent rogatos volo. Porro literae vocales et puncta diacritica, rarius ipsae literae, multo usu locis non paucis mutilata vel omnino fracta et deleta in prioribus editionibus magna cura, ut reficerentur et pravis meliora substituerentur, effecti. Itaque haec editio non minore quam prior diligentia elaborata et exensa est, neque tamen vel sic aequi harum rerum existimatores, ut omnia signa, puncta et lineae omnibus mendis careant, postulare animum inducent; quod quum in nullo libro effici queat, tanto minus in scriptis arabicis iisque vocalibus instructis sperari potest.

Praeter haec quae dixi nihil mutavi; ac vehementer laetatus sum, quod, quum nuper iterum Parisiis et Gen evae commorarer, viri docti, qui in scholis suis nostra editione utuntur, rogati a me, ut quae sibi mutanda viderentur mecum communicarent, ad unum omnes professi sunt, textum ita esse comparatum, ut graviore mutatione egeat nulla. Quo magis autem operam in Corano collocatam probatam videmus et acceptam a viris doctis, eo magis semper studebimus, ut nihil, quod ad emendandum textum et ad editionem melius administrandam aliquid conferre possit, negligatur.

Quodsi contigerit, ut quae iam prodit editio, eadem qua prior excipiat benevolentia, laetabimur propterea maxime, quod documento hoc erit, literarum arabicarum studium nova incrementa et cepisse et capturum esse.

Scrpsi Misena die XXV. Iunii.

**) Illius generis sunt numerus ad plagulas designandas et initia versuum positi et quae sunt alia. Attamen cum in animo esset, virorum doctorum Europaeorum tantum commodè scribere, omnia illa signa etiam in hac nova editione consulto reposita invenimus, neque illa nos facile caetero poterimus.

PRAEFATIO

EDITIONIS TERTIAE.

— —

Quae nunc prodiit novissima editio Corani, ea quidem non ita renovata est, ut ab editionibus prioribus longissime recedat, id quod ex se ipsa minime propositum fuit, sed hic id tantum volumus, ut quae utique corrigenda, emendanda et mutanda essent, emendarentur et mutarentur.

Cui consilio ut satisfacerem, attento animo librum examinavi, menda typographica diligentissime correxi, literas et signa prelo mutilata restauravi, nec omisi hic illic orthographiam potissimum nonnullorum verborum et lectiones mutare. Scripsi igitur ubique مائة pro مائة, cum Elif hujus verbi الفوقاية sit, ne مئة cum منه commutetur, نَذْخُرُونَ pro تَذْخُرُونَ (pag. 27. lin. 18), مَتَنَا pro مَتْنَا (pag. 72. lin. 5), أُسْفَى (proprie أُسْفَى) pro أُسْمَى (pag. 125. lin. 1), لِسْبَاءَ pro لِسْبَاءَ (pag. 226. lin. 10), يَحْرِيًا pro يَحْرِيًا (pag. 261. lin. 10) et quae sunt alia.

Ita hanc editionem summa profecto cura revisam et recognitam, quam etiam bibliopola meritissimus quam diligentissime tum in charta sumtuoſiore imprimendam curavit, lectoribus maxime commendatam volo.

EDITOR.

Quae non sine consilio et ratione compositae prodeunt Corani Concordantiae, eas ut elaborarem duplicem potissimum habui causam. Primum enim nulla fere pagina in Mohammedanorum scriptis legitur, quin ipsa Corani verba laudata inveniantur aut tecte certe significantur, ut ad sensum recte intelligendum et cognoscendum, utrum vere Corani verba sint necne, ad Concordantias confugiendum sit. Quibus quaestionibus cum semper in legendis et transferendis scriptis arabicis vexarer, nec Concordantiae Calcuttanae, نجوم الفرقان i. e. stellae distinctionis nominatae, ad eas solvendas viam munirent satis facilem et idoneam, inde a longo tempore eiusmodi librum qui votis satisfaceret desideravi et certe alii mecum desideraverunt, ii praesertim, quibus ne illarum quidem Concordantiarum usus concessus est.

Deinde vero lexicographia arabica manca est et imperfecta, magna adhuc laborat omnium rerum difficultate, inopia, angustia, ut saepe gravissima quaeque desiderentur vel ad significationem verborum singulorum vel ad flexibilem eorum formam, usum, constructionem pertinentia. Totius autem linguae arabicae ingenium, quale nobis inde a Mohammedis tempore ex scriptis innotuit, ingenii quod Corano proprium est vim et auctoritatem expertum est ita, ut sermo coranicus quasi firmum ac solidum sit senioris temporis fundamentum. Quod coranae linguae ingenium satis iam esse perspectum et explanatum, et ita in rem nostram conversum, ut omnes eius fructus in nos redundant, quis est qui contenderit! Nec vero omnia haec commoda his Concordantiis comparata a nobis esse opinamur neque ita arroganter gloriamur; sed ut omnis linguae coranae copia perspicui et diiudicari posset, id solum efficere volumus et obtinuisse nobis videmur. Quare qui futuro tempore lexicographiam quam dicunt coranicam excolere eiusque cognitionem magis magisque communis iuris facere studebit, is praeter cetera studiorum subsidia Concordantiis nostris utetur. Itaque totius libri ratio longe alia esse debuit atque illa, quam secuti sunt in Concordantiis Calcuttanicis componendis, quae eam tantum ab causam confectae sunt, ut

locorum conunicorum quaerendorum et inveniendorum materiam et auxilium praeberent, nulla gravioris consilii ratione habita: quo factum est, ut vocum et formarum ordo et dispositio ex prima quaque litera a qua incipiunt pendent, ut nullo modo statuere possis, quoties et quo usu quave forma verbum aliquod in Corano legatur, sed ad illud tantum commodum inde capiendum reiectus sis, quod supra ex eiusmodi libro redundare diximus. Huc accedit, quod Concordantiae illae minime omnes linguae partes continent. Praeterquam quod coniunctiones, praepositiones aliaeque particulae ad arbitrium tantum et libidinem consignatae sunt, ut paucissimi loci ubi inveniuntur notati sint, liber ipse erratis typographicis ita scatet, ut index eorum, ne ipse quidem satis diligens et perfectus, septem paginas expleat. Ego vero, quamquam non ea sum arrogantia, ut librum meum erroribus typographicis plane carere affirmem, maxima tamen diligentia et summo studio in illis evitandis et removendis elaborasse me profiteor, ut singulos Corani locos iterum atque iterum cum numeris quibus consignati sunt conferrem, quapropter spero fore, ut rarissime in eiusmodi errores incidas, quos non facile coniectura assequi possis, veluti numeris falso excusis, quum ex summa hac in re accuratatione pretium et praestantiam libri pendere laud ignorem.

Iam vero nonnulla de ratione ipsa, quam in conformando et disponendo libro secuti sumus, dicenda sunt, quae viri docti pronis auribus accipiant.

Tota libri ratio, ut iam dixi, plane alia est atque Concordantiarum Calcuttanarum. Nos non orthographiam singulorum verborum et formarum secuti sumus, ut يأتى sub دى, تاتى sub ت, et نأتى sub ن, quærendum sit, sed radicem, ut uno in conspectu omnes locos videas, quibus singulae nominum et verborum formae legantur, et eorum sensum et usus ambitum facilius dispicere possis. Inde patet, in conficiendo libro nihil omnino commodi ad me ex illis Concordantiis rediisse, et meas plane novas esse. Deinde ne minima quidem particula omissa sed notata est, quotiescunque legitur, et ita quidem, ut و, ل, ف, v. c. non separatae a vocibus quibus praefixae sunt exseriberentur, sed cum iis coniunctae, qua re id consequi studuimus, ut usus harum particularum et vis, quam in formas cum iis coniunctas habent, statim appareret. Praepositionum inseparabilium dispositio, ut infra dicemus, ex eadem lege pendet, et separabiles, ut dixi, omnes diligenter suo loco consignatae sunt, ut totus Coranus, ne literula quidem praetermissa, in Concordantiis continetur.

Nomina propria secundae quam dicunt declinationi subiecta, ut ابراهيم sive ابرهيم, اسمعيل, ita recensuimus, ut casus eidem flexioni obnoxii, quales sunt Genitivus et Accusativus, bene distinguerentur; nominum autem appellativorum, ut الموتى, الهدى, casus uno in conspectu sub eadem forma exscripti sunt. Denique nomina propria composita, ut ذو ابو لهب, القرنين, ita sciuncta sunt, ut singulae compositionis partes singulis locis quaerendae sint, id quod sine ulla difficultate et mora fieri potest.

In verbis et nominibus, quibus pronomina suffixa sunt, dispositionis ordo non ex pronomine, sed ex forma verbi et casu nominis pendet, ut primum locum Nominativus cum omnibus suis affixis tenent, secundum Genitivus, et qui sunt reliqui singularis et pluralis numeri casus, ea quidem conditione se excipiant, ut pronomen possessivum et personale ceteris omnibus antepontur, quod ibi quoque factum est, ubi praepositionibus adiuncta sunt. Eadem ratione verborum tertiae personae omnium formarum primo loco positae sunt, sed ita ordinatae, ut suffixum primae personae singularis etiam primum locum sibi vindicet, et sic cetera sequantur.

Cum alphabeticae dispositionis lex primaria sit ac potissima, particulae inseparabiles illae, quae in verbi rectionem vim habent magnam, in substantivi nullam, quales sunt **أ, ف, و, ل**, ita se excipiunt, ut alphabeticum ordinem sequantur. Praepositiones inseparabiles, ut **ب, ك, ل**, et separabiles, ut **على, عن, في, من** cum pronominibus coniunctae (cf. **فِيهِ, عَنْهُمْ** etc.) substantivi vel pronominis ordini subiectae sunt; ut separabiles cuiusvis alii nomini praepositae suis ac propriis locis invenientur.

Nomina substantiva, quibus pronomen primae personae **ي** suffixum est, ut **اجرى, ابنى**, **اخي**, **امري**, **اهلي**, **آياتي**, nulla casuum ratione habita, qui quidem forma simplici separatim posita vix statim discerni possunt, omnibus formis cum ceteris suffixis compositis praemisimus obtemperantes legi, qua nos propter brevitem obstrictos esse vidimus. Sed ne ita quidem iis qui locos quaerunt mora iniicietur.

Nonnullae particulae negativae cum interrogativa compositae, quales sunt **لا** et **لم** ob illam cum litera **أ** compositionem literae Elif insertae sunt id quod in **ألا, ألم, أولم** cadit quod vim quandam absolutam continet compositione illa effectam. Lexicographi quoque ob eandem fortasse causam eundem ordinem sequantur.

Formam pronominis **مَنْ**, quod interrogativum et relativum esse potest, secundum hanc duplicis naturae vim non seivimus, cum etiam casus eius minime distinguantur, id quod eodem modo, ut supra diximus, in formis **هَدَى** aliisque similibus non factum est. Loci, ubi **ما** particula negativa et ubi pronomen est, diligenter indici sunt, id quod etiam in formis compositis, ut **مَآ, مَآ** observavimus.

Haec fere erant de ordine et aliis legibus quibus tenebamur observanda et praemonenda. Quodsi Concordantiae non ita comparatae sunt, ut eundem perfectionis gradum, quem v. c. Concordantiae hebraicae obtinent, affectare possint, causam eius rei neque in negligentia neque in inscitia querenda est, sed cum brevis praeter cetera nobis commendaretur, huic legi, si quidem librum in publicum emitte volebamus, nobis sanctissime parendum fuit. Habes voces quidem simplices omnes, non totos locos, ut in ceteris Concordantiis, quas si imitari voluissimus, a nobis quoque facili modo eadem ratione elaborari poterant; at vel simplices voces omnino satisfaciunt

is, quae iure tuo a Corani Concordantiis postulare possis. Difficiliorem certe laboris partem perficiendam in nos suscepimus, et si quando Concordantiae coranae perfectiore illa forma et ampliore ornatæ proditurae sunt, fieri hoc facillima manuum opera poterit.

Id semper observare velim lectores, consilio, quod Concordantiarum coranicarum compositione assequendum nobis proposuimus, nostro hoc libro satisfactum esse videri, et laetabimur vehementer, si viros doctos illum fructum e nostro libro cepisse audiverimus, quem praeherere volumus.

Bibliopola autem meritissimus harum Concordantiarum chartam et formam ita ad Corani editionem meam alteram accommodavit, ut uterque liber facili modo uno volumine comprehendi possit.
